**Press Release – Issuance of Directors and Officers Stock Options and  
Settlement of Debt**  
March 6, 2009

The Directors of Tiger International Resources Inc. (TGR.TSX.V) have approved the issuance of Directors and Officers Stock Options to the following directors and officers. The term of these options will be for five years from the date of filing with the TSX Venture Exchange, and the option price shall be the average trading price of the last ten trading days of 19c a share less a TSX Venture Exchange permitted discount of 25% which equates to an issuance rounded price of 14c. The issuance of the options is subject to the approval of the TSX Venture Exchange and shall be subject to the rules of the Exchange, including a four month hold period, and approval by shareholders of the Company's Share Option Plan.

The Optionees are:

|                                 |                       |
|---------------------------------|-----------------------|
| Patric Barry, President and CEO | 200,000 share options |
| Ian Cooper                      | 200,000 share options |
| Joseph Breslawski, director     | 400,000 share options |
| William Fallick, director       | 50,000 share options  |

The issuance of share options is a method of remuneration to corporate officers. The grant of incentive stock options provides long term incentive to the Company's key personnel and further ensures that the interests of the Company's personnel are aligned with the interests of the Company's shareholders. The award to Mr. Breslawski is in special recognition of his five years of company service without prior options or remuneration.

Funds advanced to the company by a director have been assigned to North American Capital which has agreed to settle the advance with shares at 19 cents a share discounted to 14c rounded, and the amount to be settled is subject to audit confirmation, TSX Venture Exchange approval and shareholder approval but is estimated to be \$125,000 and will be settled with the issuance of approximately 892,000 shares subject to a six month trading hold plus an option to purchase 892,000 shares at 14c for a period of two years from share issuance. The transaction leaves the company debt free.

Annual General Meeting:

The Annual General Meeting for the Company shall be held at the California offices of the company on May 1, 2009 at 8:00 am. The shareholders will be asked to ratify the company's share option plan and the issuance of the above shares and share options at that meeting.
