## **Press Release - March 18, 2005**

### **Activities Update – Tiger International Resources**

**Patric Barry**, President of Tiger International Resources (TGR.V) reports:

**Oil Drilling Program:** The oil well in which Tiger is participating in drilling in the Paramax Fosterton area of Saskatchewan will be spudded in April. Extra seismic was acquired to assist in the location of the drill rig, and to evaluate additional drilling targets for later, with four new targets having been defined by the operator. Tiger holds 10% of this well before payback.

**Esperanza Gold Project:** Tiger received the long awaited Government Exemption from the watershed restriction this month, and has received confirming opinion from the Dept of Natural Resources in Baguio City that all restrictions have been removed, excepting typical permit requirements and limits on felling trees and building roads, and that there is no longer any restriction on mining the property. Tiger has worked with the vendor, Pan Asia Exploration Services, to obtain this Exemption from the provisions of the Mining Act of 1995 wherein mining in a watershed is prohibited. The granting of the Exemption by the government allows Tiger to proceed with exploration and eventual mining of the property. Management conducted a field trip recently and sampled an exposed quartz vein with positive results, and learned that a series of tunnels that were dug during past mining prior to World War 2 are still accessible and can be reopened. Tiger is planning to proceed rapidly with the development of this project, and in accordance with the agreement between Tiger and Pan Asia has requested counsel to amend the agreement in accordance with Philippine Law and has requested this be done without delay.

Tiger has incorporated a new domestic company in Malaysia to further the company's application for a Prospecting License in that country. More details will be announced on this application when the License has been granted to Tiger's new subsidiary by the government. Tiger has no indication of the time it may take for government consideration of this application.

For further information on these items, or any other matters, please contact Patric Barry at (949) 362.1600 or view the company's documents at its website at [www.tigerresources.com](http://www.tigerresources.com)
